You are cordially invited to join Dr. Marvin Connelly, the Superintendent of Cumberland County Schools, and Mayor Larry Dobbins for a conversation with the Spring Lake Community, which will focus on four key questions:

1. What do you feel the Cumberland County Schools is doing well when it comes to educating our students?
2. How can our school system better support our students?
3. What do you think should be our district's overarching focus?
4. How do you think the community can be involved with strengthening our schools and public education?
